Amendments to the Specification:

On page 1, immediately after the title, please insert:

-- **PRIOR APPLICATION DATA**

The present application is a national phase application of International Application PCT/GB2004/005158, entitled "ANTENNA FOR MOBILE TELEPHONE HANDSETS, PDAs AND THE LIKE" filed on December 10, 2004, which in turn claims priority from British application GB0328811.5, filed on December 12, 2003, all of which are incorporated by reference in their entirety.

FIELD OF THE INVENTION

The present invention relates to antenna structures, including multi-band antenna structures, and techniques for the construction thereof, where an antenna is required to be mounted on a printed wiring board (PWB) or printed circuit board (PCB) that has a full ground plane (i.e. metallised layer) on a side opposed to that on which the antenna is mounted. Embodiments of the present invention also provide advantages in applications without a significant ground plane.

BACKGROUND OF THE INVENTION --

On page 1, lines 3-8, please remove:

-- The present invention relates to antenna structures, including multi-band antenna structures, and techniques for the construction thereof, where an antenna is required to be mounted on a printed wiring board (PWB) or printed circuit board (PCB) that has a full ground plane (i.e. metallised layer) on a side opposed to that on which the antenna is mounted. Embodiments of the present invention also provide advantages in applications without a significant ground plane. --
